The following agreement is between Mary Ann Ruggiero-Smith, vom Sanften Loewen (breeder), and _____ hereafter referred to as "Puppy Buyer."

The purchase price* is (to be determined by breeder). 1/2 of the total will be taken as a deposit. The breeder agrees to hold a puppy meeting the criteria specified by the puppy buyer, but remains dependent on availability, in the designated litter, and the health and suitability of any given puppy for the buyer's need and situation, as determined solely by the breeder. The puppy buyer agrees to pay the remainder of the purchase price one week prior to receiving the puppy. If, for any reason, there is no puppy available, the deposit will be refunded in full, without interest or other penalty. A deposit is under no circumstances a guarantee of availability of a puppy from the designated litter, though the Breeder is operating in good faith and will not oversubscribe any litter, with understanding that the exact number of available pups and sex distribution of pups is impossible to predict and that a waiting list is generated of all interested buyers until such time as number, sex, health and even temperament, of pups is determined.
